Satellite Accumulation Area Inspection Report

Submit To: Environmental Branch

Building 4640

Questions Call: 544-9578 or 544-5988

Date	Location	POC		Inspector
Ins	pection Criteria	Pass/Fail		Comments
Container Labeling: Are containers holding hazardous waste clearly marked with the words "Hazardous Waste" or words describing the contents?				
Container Compatibility: Are wastes compatible with the accumulation container?				
Container Condition/Housekeeping: Are containers in good condition, free of leaks, spill, corrosion, and structural defects?				
Container Handled/Closed: Are containers handled in a manner to prevent rupture or leaks? Are containers over 30 gallons stacked more than two high? Are containers kept closed, except when necessary to add or remove waste?				
Container Location: Are containers located at or near point of generation?				
Full Containers: Have filled containers been dated and turned in for relocation to the HWSF?				
<u>Corrective Action:</u> Have discrepancies been corrected in a timely manner?				
CERTIFICATION				
The information above is, to the best of my knowledge, accurate. All necessary corrective action has been completed.
